Tuition and Fees Disclosure

Effective Date: May 22, 2026

This document discloses the tuition costs and any additional fees a parent or guardian may be required to pay during the school year for a student enrolled in Optio Academy, a fully online private school operated by Optio, LLC for grades 9 through 12.

Annual Tuition

Annual tuition for Optio Academy is **\$8,000 per student per school year**, billed on the schedule agreed at enrollment (annual or installment plan). Tuition includes:

- Daily 1-on-1 mentor sessions with a dedicated teacher
- All curriculum materials across the five skill pillars
- Full access to the Optio digital learning platform
- An AI study buddy for between-session support
- Online showcases and student community
- The student's transcript and official records
- The Optio Academy diploma pathway

Additional Fees Required During the School Year

None. Optio Academy charges no additional required fees during the school year. Specifically, there is:

- No enrollment or registration fee
- No curriculum or materials fee
- No technology or platform fee
- No testing, assessment, or transcript fee
- No graduation or diploma fee
- No activity, showcase, or community fee

The annual tuition is the full cost of attendance. Optio Academy does not require families to purchase outside textbooks, software, hardware, or supplies as a condition of participation. Because the program is delivered fully online with no physical campus, there are no transportation, meal, uniform, or facilities fees.

Tuition Parity for Scholarship-Funded Students

Tuition, fees, and refund terms for students whose tuition is funded by a scholarship or other third-party program are **identical** to those for students paying tuition directly. Optio Academy does not charge

scholarship-funded students more than non-scholarship students for the same program.

Refund Policy

If a student withdraws from Optio Academy before the end of the school year, tuition is refunded prorated by the number of months the student attended. Months in which the student was enrolled for any part of the month count as a full attended month for purposes of this calculation.

If a student's tuition was funded in whole or in part by a government or third-party scholarship program, any refund owed under this policy is remitted directly to the program manager or financial administrator of that program for redeposit into the student's scholarship account, in accordance with that program's rules. Refunds are not remitted to the parent or student in such cases, except where the program's own rules require otherwise.

No Rebates or Pass-Throughs

Optio Academy does not refund, rebate, or otherwise share scholarship funds with the parent or student outside the financial-administrator channel established by the applicable scholarship program. Optio Academy does not pay commissions, kickbacks, or other inducements to families in exchange for enrollment.

Payment Processing

Tuition payments from families paying directly are processed through Stripe. Tuition payments funded by a scholarship program are processed through that program's financial administrator. Payment plans are available; specific terms are agreed at enrollment.

Pricing Changes

Optio Academy reserves the right to modify tuition pricing with at least 30 days' advance notice. Pricing changes do not affect tuition for the current school year for students already enrolled.

This disclosure is provided as part of Optio Academy's pre-enrollment disclosures to prospective families and scholarship program administrators, and is incorporated by reference into the Optio Academy Participant & Parent Agreement, available at optioeducation.com/academy-agreement.
